FAX: (916) 776-2293

January 10, 1997

To: Delta Protection Commission

From: Margit Aramburu, Executive Director

Subject: Availability of Summary of Comments and Responses Regarding
Adoption of P-3 as a Regulation

As reported in my report by mail, the Commission's Rulemaking File regarding adoption of Utilities and Infrastructure Policy P-3 as a regulation was filed with the Office of Administrative Law on December 12, 1996. A response is required in 30 working days, which is January 28, 1997.

Please contact me if you would like a copy of the summary of comments and responses which was prepared and filed with the rulemaking file. The summary is approximately 100 pages long. You may recall that only the environmental comments and responses were required to be included in the packet of material reviewed and approved by the Commission in September.
